Airport Beach and Flat Rock boat ramp at Waco Lake to close for construction

FORT WORTH, TX - The U.S. Army Corps of Engineers at Waco Lake will temporarily close access to both the Airport Beach area and the Flat Rock boat ramp on Sept. 16, 2002. These facilities are being closed due to construction activity associated with the Waco Lake Pool Raise.

Construction has already begun in Airport Beach with work being done on a new picnic area, a new four-lane boat ramp and a 100-vehicle parking lot. A new swim beach, similar to the one at Twin Bridges Park, will also be constructed.

The boat ramp, parking lot and road at Flat Rock will be raised to accommodate the 7-foot pool raise. This is a change from the proposed site on the North Bosque River at Highway 185 Bridge. This change in plans is due to elevation requirements for the pool raise which cannot be met at the Highway 185 location.

Both facilities will be re-opened when construction is completed. For more information, contact the Waco Lake Office at (254) 756-5359.
